RIOTING IN BELGIUM

RESIDENTS OF ANTWERP DEFY THE GERMANS TO TAKE THEM FROM HOME

(By Associated Press.) LONDON, Dec. 4.—A Reuter Amsterdam dispatch says two Belgians who arrived at Sluiskil, Holland, from Ghent report a revolt at Antwerp on November 30 of between two and three hundred inhabitants, in which many German soldiers were killed. The outbreak was due to a call on the inhabitants to work in Germany.

(By Associated Press.) AMSTERDAM, Dec. 4.—"Les Nouvelles" says the Germans are beginning to reduce their requirements as to the number of unemployed to be deported from Belgium. Many who presented themselves were sent home to Liege and elsewhere. The paper adds that apparently the protests of the neutrals are producing an effect. Invalids and boys of fifteen returned to Ghent report they were forced to work in the trenches, with bad food and harsh treatment.

(By Associated Press.) GAMBLING STOPPED

GRAND JURY OBEYED AFTER DEALERS FOUND THERE WAS NO ALTERNATIVE

To all intents and purposes, gambling is a past offense, since every house where playing for money was permitted was notified Saturday night of the intention of the grand jury to prosecute all violators of the statute prohibiting illegal gambling or operation of percentage games. This is the sequel to the action of the jury reported in the Bonanza of Saturday wherein the sheriff, district attorney and constable were notified that unless they did their sworn duty they themselves would become subjects of judicial action.

(By Associated Press.) PETROGRAD, Dec. 2 (delayed).—The semi-official news agency says that in the Duma today Premier Trepoff read a proclamation announcing officially that an agreement concluded by Russia, France and Great Britain in 1915, and later approved by Italy, "establishes in definite manner the right of Russia to the straits and Constantinople."

The northern now is higher.

Carranza Recaptures City Chihuahua From Villistas

(By Associated Press.) JUAREZ, Mexico, Dec. 4.—Carranza forces were again in control of Chihuahua City today and Villa had fled to the mountains of the west of the capital city, it was announced today by General Francisco Gonzales, commander of the Carranza brigade here. General Carlos Ozuena, the cavalry commander who has been charging the rebel lines at Nombre de Dios and the northern suburbs of Chihuahua City, succeeded in entering the city yesterday afternoon at 7 o'clock, it was announced, and has re-established telegraphic communication with the border. He made a brief report to General Gonzales here, who is his superior officer, and then proceeded in the heart of the city on an

exploring expedition and was expected to report by telegraph late tonight or early tomorrow on the present conditions in the capital, the losses to both sides and the fate of the Americans and other foreigners in the city. The battle between the forces of General Murguia and the bandits took place Friday and was believed to have completely routed the Villistas in that district and to have sent them towards the west, to which direction Villa and his staff are said to have gone on special trains. Six trains entered Chihuahua City today from the south and were believed here to have carried the remainder of Murguia's column, his field equipment and heavy artillery. Telegraphic communication has been re-established with Torreon and Mex-

ico City from the Chihuahua state capital, and the railroad has been repaired and trains are operating as far south as Jimenez, it was announced here. Only the most meager details of the fighting which resulted in the re-occupation of the capital have been received over the federal telegraph line, which was operating all day to the military headquarters in Chihuahua City to General Gonzales' headquarters here. It is believed by Carranza officers here that Villa left some time yesterday for the west over the Mexican Northwestern railroad, following the two trains of loot which he sent west after capturing the town and looting many of the stores, according to the reports brought to the border by refugees.

Turkey received formal assurances guaranteeing her in exchange for neutrality the integrity of her territory and independence, and also conferring on her certain privileges and advantages. These efforts were vain. Turkey surreptitiously attacked us. "We then concluded an agreement with our allies, which establishes the right of Russia to the straits and Constantinople. Russians should know for what they are shedding blood, and in accord with our allies, announcement of this agreement is made today from this tribune. Absolute agreement on this point

(By Associated Press.) WASHINGTON, Dec. 4.—Federal judges do not possess an inherent power exercised for a century and cannot suspend the execution of criminal sentences imposed in their courts, the supreme court held. SEQUOIAS ARE SOLD TO U. S.

(By Associated Press.) WASHINGTON, Dec. 4.—Giant forest, the privately owned tract of the world's largest trees in the heart of Sequoia national park, is about to pass into the hands of the government through co-operation between the interior department and the National Geographic society. Congress during the last session appropriated \$50,000 to purchase the land, but the owners refused to sell unless adjacent holdings valued at \$20,000 were taken at the same time. An option on the entire tract was secured and today the board of managers of the geographic society appropriated the \$20,000 to make possible the immediate payment of \$70,000. The interior department offi-

cials sought the co-operation of the society because it was realized that the option probably would expire before additional money could be secured from congress. In the giant forest, which is a tableland about 20 miles in diameter, are trees estimated by experts to be 4000 years old. One of them is the General Sherman, the largest in the world, having a circumference at its base of 102 feet and towering 279.9 feet into the air.

REORGANIZATION OF CABINET SAVES GOVERNMENT FROM DISSOLUTION

(By Associated Press.) LONDON, Dec. 4.—Asquith's decision to reconstruct the cabinet is believed to have saved the coalition government again and insured more vigorous prosecution of the war. The war council has not been agreed upon yet. Lord Asquith announced in the commons today that the king approved a reconstruction of the government. Asquith suggested that the house adjourn until Thursday. It is stated that reconstruction of the government involved no departure from the policy adopted since the beginning of the war. (By Associated Press.) COPENHAGEN, Dec. 4.—The Hamburger Correspondent contains an article on the new German railroad regulations, which it says are most revolutionary. 1,500,000 MEN ASK FOR INCREASE IN WAGES

(By Associated Press.) DENVER, Dec. 4.—A telegram to President Wilson asking him to support a petition to be presented to congress requesting authority for railroads to raise all rates sufficiently to cover a substantial advance in wages of one and one half million employees not affected by the Adamson law was sent to Washington today by the executive committee of the local organization of non-union railroad employees.

According to the telegram, the new organization is to be known as the National Association of Railroad Employees and the plan contemplates the circulation of a petition in every congressional district in the country.
